AJIAL BILINGUAL SCHOOL GRADE 3 NEWSLETTER

Week 13: November 23rd to November 26th ,2026

Dear parents,

Please take note of the following:

1. Math: Chapter-3 Subtraction test on Wednesday Nov. 25th ,2026. Students will be tested on three and four digit subtraction questions and word problems.

2. We would like to inform you that the Winter cycle of NWEA MAP testing will take place in December. Please note that this testing cycle will be graded.

   To help students prepare, practice sessions will be conducted at school during scheduled computer lab periods. We also encourage parents to support their children by providing opportunities for additional practice at home.
   Please note that the previously recommended website, PrepDog (prepdog.org), is no longer available. As an alternative, students can use the following resource to practice their mathematics skills:
   Khan Academy – NWEA MAP Math Practice
   https://www.khanacademy.org/math/mappers
   The primary purpose of MAP testing is to identify each student's individual learning level in literacy and numeracy, monitor academic growth, and help students build the skills needed to progress.
   MAP results also provide valuable information that allows teachers to identify students' strengths, address areas for improvement, and support individual learning needs through classroom instruction.
   We appreciate your continued partnership in supporting your child's academic growth and success.

3. There will be a holiday on Sunday, Nov 22nd , 2026, for the mid Quarter-2 break. School will resume on Monday, Nov. 23rd , 2026.
