

Grade 5 Newsletter

Week 33: May 28-June 1, 2023.

Message from the Grade 5 Team:

ELA: “How can one idea change your future?” That is the big question we are exploring in this unit. To answer it, we are reading, writing, and talking about how people start businesses. Be a part of our exploration!

Math: This week, students will start a new chapter, Chapter 12 Geometry and start exploring polygons and angles.

Science: In Science we will continue exploring Unit 13, Matter. There are three states of matter: solid; liquid and gas. They have different properties, which can be explained by looking at the arrangement of their particles. All particles are constantly in motion. Adding or removing energy from particles can cause them to change state.

Important notes:

- *Sick notes must be submitted to the reception within 3 working days of the absence.*
- *Parents and guardians, we wanted to remind you that if your child ever loses their ID, it's important to get it replaced as soon as possible. The replacement fee is only 5KD, and having an ID is necessary for daily attendance tracking, library book check-out, textbook return at the end of the year, and participation in exciting field trips. Your child's official presence and safety are important to us, so please don't hesitate to have their ID replaced if needed.*

Thank you for your cooperation
