

Grade 5 Newsletter

Week 4: September 24-28, 2023.

Message from the Grade 5 Team:

- **ELA** "How can where you are, change who you are?" That is the big question we are exploring in this unit. To answer it, we are reading, writing, and talking about immigration. Be a part of our exploration!
- **Math:** Students continue Chapter 1 by exploring place-value relationships in multidigit numbers. They learn that a digit in a particular place-value position is worth 10 times as much when it moves one place to the left and 1/10 as much when it moves one place to the right.
- **Science:** Scientists discover new things and figure out how things work. They answer questions by careful observations and investigations. In this lesson we will learn about different kinds of scientists and what they do!
- **Please submit your projects via MS Teams**
- **Math Test Place Value Lessons 1-3, Tuesday October 3rd 2023**
- **Grammar and Comprehension Test, Wednesday October 4th 2023**

English Language Arts

Selection: I Was Dreaming to Come to America by Veronica Lawlor
