1C1 Mohammad Ahmad Al Mutairi
1D Seetah Abdullah Al Khaldi
1E Lamar Talal Al Fadhli

We will do the next cycle of MAP testing in December. This will be the Winter cycle and this MAP testing will be graded.

There will be in school practice during lab periods but we would like the students to also practice at home.

The website prepdog.org is not available for use. Alternatively, you can use Khan Academy for NWEA Math

https://www.khanacademy.org/math/mappers

The goal of the MAP testing is for students to know their individual levels in literacy and numeracy and work towards improving their levels through MAP testing and in class learning.
