

AJIAL BILINGUAL SCHOOL GRADE 3 NEWSLETTER

Week 4: September 19th to 23rd

Dear parents,

This week we will continue learning about helping others in the community. We will also continue picture graphs but start bar graphs. They will be expected to do their own survey at home and their data collection via a bar graph. In science, we will be learning about plants. Student must also plant a seed for homework. Please take a picture of this experiment and send it to your teacher.

Reminder that its best to sign in at least 10 minutes before classes so we do not face any internet challenges or technical issues.

Please refrain from speaking with the teacher during classes. You can email at any time or book an appointment and speak with the teacher via MS Teams.

We thank you for all your hardworking working alongside your child.
