Grade 5 Newsletter

Week 12: 15-19 Nov , 2026.

Message from the Grade 5 Team:

ELA: : Students will continue with Unit 3 with a new story 'living links'. The big question we are exploring in this unit is "How are animals and plants dependent on one another?". To answer it, we are reading, writing, and talking about how living things are connected.

Math: We will continue dividing in Chapter 4. Our focus will be on exploring various strategies used for dividing with 2-digit whole numbers

Science: We will begin Unit 4, "Energy and Matter in Ecosystems." This week we will complete lesson 1. Students will model how energy and matter move through an ecosystem.

REMINDERS

Field trip Girls – Trampo : 17th November
Field trip Boys – Trampo : 24th November

We will do the next cycle of MAP testing in December. This will be the Winter cycle, and this MAP testing will be graded. There will be in school practice during lab periods, but we would like the students to also practice at home.
The website prepdog.org is not available for use. Alternatively, you can use Khan Academy for NWEA Math https://www.khanacademy.org/math/mappers
The goal of the MAP testing is for students to know their individual levels in literacy and numeracy and work towards improving their levels through MAP testing and in class learning.

English Language Arts

Reading Selection: 'Living Links', page 177-181
Essential Question: How are animals and plants dependent on one another?
