## Grade-6 Math

Dear Parent,

Greetings!

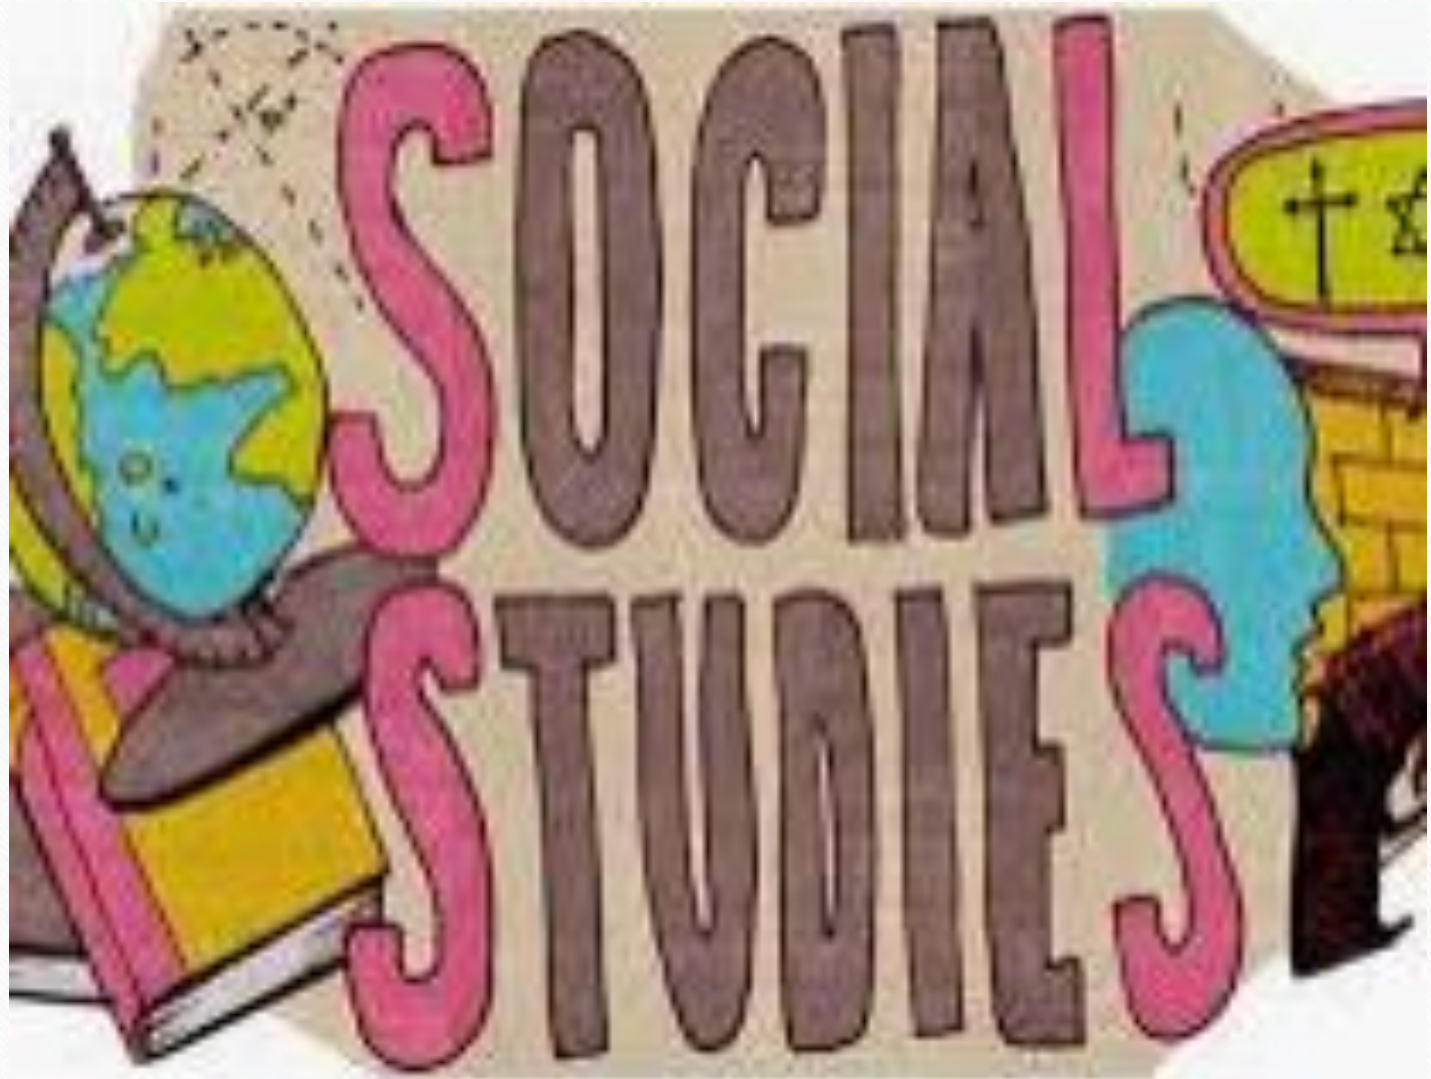

It has been noticed that some students are struggling to do mathematical operations as they do not know the multiplication tables. Recollecting multiplication facts quickly is highly important for your child's effective math learning, and for performing well in assessments. Please help your child memorize multiplication tables and give your child a daily practice on this.

**All students are expected to practice Math daily at home.**

Thank you for your cooperation in our efforts to educate your child.
